-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 22 April 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. Claims 1-23 are pending. Claims 1-11 are still withdrawn from consideration.
2. Applicant's April 22, 2004 submission of the Information Disclosure Statement and Supplemental Information Disclosure Statement is noted. However, no art accompanied these statements. Thus, the art has not been reviewed. It is suggested that due the sheer volume of the art Applicant desires the Examiner to review that the relevance of each be commented upon if Applicant attempts to have these statements reviewed.

Drawings

3. The drawing was received on June 24, 2002. This drawing is acceptable. Overall, however, the Applicant's drawings are not deemed acceptable in relationship to the descriptive portion of the specification and the claims. For example, where is a financial clearinghouse disclosed in the drawing figures as recited in the claims 17 and 21? The specification discusses common knowledge clearing houses, e.g. Federal Reserve Bank from page 33, lines 3-5, but these do not appear in the drawing figures. The Examiner is left to speculate as to whether it is element 292 disclosed in the present Application. Other issues, e.g. payment nodes, are similar in nature and have not been corrected. No new matter may be entered.

Claim Rejections - 35 USC § 112

4. Claims 12-23 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant does not disclose a settlement computer coupled to a plurality of remote payment modes by a communications network, aggregating payment information comprising payment values, remote payment parties, number of payments and number of payment values from the "DETAILED DESCRIPTION" of the specification in juxtaposition to the drawings. It is noted the "SUMMARY OF THE INVENTION" discusses briefly discusses payment nodes. As is, it is not clear how the claim language is supported by the specification as a whole. Applicant is required to specifically point out the specific portions of the present application where support for the claim language may be found. No new matter may be added.

Applicant's REMARKS that the Examiner admits that the claims have word-for-word written description support in the Summary of the Invention has no support from the previous Office Action. The comment that the ""SUMMARY OF THE INVENTION" discusses briefly discusses payment nodes" does not support these REMARKS. Applicant is invited to

particularly point out where such statement was made in the previous Office Action. Also, regarding Applicant's REMARKS, under the 35 U.S.C. 112 portion, Applicant's reference to a

settlement computer 20 is noted. However, no such language "settlement computer 20" is present in the descriptive portion of the specification. Applicant's written description, e.g. page 10, line 24 to page 23, line 4; page 32, line 19 to page 34, line 7; or page 34, line 19 to page 35, line 25, referenced does not clearly support the claim language recited by Applicant. Specific support for the claim language in juxtaposition to the descriptive portion of the specification and drawings is required. As is, the claim language in relationship to the other portions of the disclosure is not clear to the Examiner.

It is noted that from Applicant's specification, page 34, line 23, "bus322" needs correction.

Claim Rejections - 35 USC § 103

5. Claims 18-23, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Lawlor et al, US 6,202,054.

Lawlor discloses a system used with financial institution for payment transactions comprising a payment manager computer system, e.g. 52, coupled to a plurality of remote payment nodes, e.g. col. 54, in a communications network, e.g. Fig. 1, where payments may be aggregated, e.g. col. 32, lines 18-37, Fig. 9. In broad scope and content the payment nodes may be viewed. Lawlor does not disclose the term settlement computer or financial clearinghouse. To

Doing such would implement common knowledge within the financial processing art. Regarding claim 23, this would have appeared an obvious factor multiplication for one of ordinary skill in the art.

6. Further pertinent references of interest are noted on the attached PTO-892.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Joseph Rudy whose telephone number is 703-308-7808. The examiner can normally be reached on Tuesday thru Friday, 7:30 a.m until 6 p.m..
